Good morning

I'm currently working on my dissertation for my degree in Computer Systems Development with a focus of cloud computing adoption in local government as part of my role. I have created a short survey with the intention of finding out about cloud computing in local government.

This survey will give an insight about how much cloud computing has been adopted in local governments, what are the benefits and disadvantages as well as what may impact its implementation. All responses are kept anonymous and will only be used for the purpose of research towards my dissertation.

Survey-**<REDACTED>**

Please could the above link to the survey be forwarded on to the IT manager or the person responsible for the IT within your organisation. All responses are kept anonymous and will only be used for the purpose of research and analysis towards my dissertation.

The deadline for responses to the survey is February 14<sup>th</sup>.

Kind Regards
